## 1031 Emergency Intercom Housing

### FEATURES

- Rugged Vandal Proof Housing
- Simple, Single Touch Call-In
- Weather and Corrosion Resistant
- Long Life Blue Identification Light
- Bright Alarm Strobe Light
- Clear, Hands-Free Speech
- Line Monitoring
- ADA Compliant

### FUNCTIONAL DESCRIPTION

The #1031 CB-I is a vandal resistant housing that provides lighting and an ADA compliant, fully integrated emergency assistance communication system. The CB-I provides a highly visible blue area light and a bright blue flash strobe light activated on call-in, and space for a hands-free intercom station. The unit is designed for outdoor use on college campuses, hospitals, parking lots, shopping malls, industrial complexes and office walkways. The #1031 with a #62927-9 or #96257-9 station, will operate on AlphaCom or 9600 systems.
